Alfalfa & AlfaGrass

Renovo Seed's exclusive alfalfa varieties are born and bred with you in mind - we take yield and persistence to the next level. There are hundreds of varieties out there, but our experts hand-select only the best of the best for your fields.

On top of elite alfalfa, we're famous for our AlfaGrass blends. These mixes have a longer stand life than straight alfalfa and face less disease and pest pressure. Adding grass also reduces drydown time - a big benefit if you're in a high rainfall area.

Get top yields and outstanding persistence with Renovo Seed alfalfa and AlfaGrass.
